TO THE VOTERS OF THE REPUBLIC OF HAWAII.

We, the Delegates of the American Union Party of the Island of Oahu, Republic of Hawaii, in Convention Assembled, this 13th day of October, 1894, announce and declare these to be our Principles, and this the Platform of our Party:

1.—We declare unequivocally that the foremost mission of the American Union Party shall continue to be the unreserved effort to secure the political union of Hawaii with the United States of America.

2.—We cordially commend the efficient, courageous and honorable conduct of public affairs by the officers of the Provisional Government and Republic of Hawaii.

3.—We are proud of the party's policy of internal improvements and development, and in witness point to the inauguration of extensive public works, to practical projects of similar nature, and to plans of settlement for open lands.

4.—We oppose the employment of prison labor in any mechanical pursuit.

5.—We are opposed to the employment of Asiatics upon any public work.

6.—We declare against the importation of labor or material of any kind whatever by the Government.

7.—We recommend that the Government at once secure absolute ownership of all water front lands in every harbor throughout the group where the possession of such lands by other parties is detrimental to necessary wharfage facilities.

8.—We favor a revision of the tax system, whereby all property, improved or unimproved, shall be taxed on an equitable basis, and recommend a consideration of the graduated tax system.

9.—We favor such legislation as will promote the occupancy of all public lands by small holders, and foster the development of varied industries, believing it to be of vital importance that "many acres should be for many men." We ask that Hawaiians have the opportunity to secure homesteads upon more favorable terms than granted to others.

10.—We are in hearty sympathy with the spirit which actuated the government in its dispatch of a commissioner to search for European labor for the industries of the Islands, as a further earnest of the intent of the dominant party in these premises we refer to the creation of the Labor Commission by the Council of the Republic.

11.—We pledge all the power and influence this party may possess to aggressive endeavor to bring about at once the restriction of Asiatic immigration. In this connection we again point to the menace of Asiatic encroachment, and demand legislative protection from these people for Hawaiian, American and European mechanics and tradesmen.

12.—We urge the enactment at once of a law that will cause the Asiatics brought to these Islands for plantation labor to continue in that service, or return to their homes.

13.—We demand such revision of the Tariff as will prohibit competition with American products and manufactures; protection to which America is justly entitled by virtue of the Treaty of Reciprocity, and which we deem necessary to insure the existence of our merchants, who are being rapidly superseded by an element having nothing in common with the principles lying at the foundation of our institutions.

14.—We urge the Government to secure for the Islands cable communication; that no exclusive franchise be granted, and that no agreement or contract be made which does not meet with the unqualified approval of the United States.

15.—We ask that there be continued effort in the direction of extending and improving the system of free schools.

16.—We declare our opposition to Monopolies and Trusts of any kind.

17.—We declare full allegiance to the Republic of Hawaii, citing its Constitution and the present peaceful condition of the country as work of the American Union Party.

WOOD!

There is probably less coal used here in private families than in any city to which that article is exported. The reason is plain—wood is cheaper and of better quality. Nature provides Hawaii with the wonderful and rapid growing algeroba and it supplies the fuel for the people. Anyone who has ever visited the neighborhood of Waialae has been attracted by the forests of trees of this description. People who have gone there to inspect Mr. Isenberg's ranch have marveled at the care and attention given the cutting of trees for the market. As the supply cuts some of the ice in regulating the price of a commodity so the thousands of trees on Waialae Ranch act as a factor in putting down the price of wood. Mr. Isenberg sells wood cheaper than anybody else and delivers it free in any part of Honolulu. Ring up either telephone and get a cord.

If you've had any trouble with your milk try some from the Waialae stock for a month.
